**Subject:** Re: Glyphosate: pre-meeting information from me

It's a preliminary discussion with ORD scientists before we meet with Tom tomorrow. It could be interesting: some of the NHEERL scientists think like they do in OPP.

But what discussion is it? I don't know who it is you are talking to

It's up to you. The call-in number is **Teleconference Line / Ex. 6** I can hold down the fort if you don't call in.

I'm assuming I'm not involved in a discussion at 2:30 this afternoon, since it's not on my calendar

**Subject:** Glyphosate: pre-meeting information from me

Hello everyone—Last week I was on travel and couldn't easily participate in email discussions. In advance of this afternoon's ORD pre-meeting at 2:30pm on glyphosate, I'm sending you three files:

1. Verbatim conclusions from IARC, EFSA, and EPA/OPP on the human data, animal data, and mechanistic data.
2. Verbatim text defining the EPA's cancer descriptors from our cancer guidelines.
3. File #1 with an additional column with my comments, informed by discussions with scientists within NCEA.

In the interest of getting the factual information to Tom Burke more than a day in advance of the meeting with him, I'm sending the first two files (verbatim, factual information) to him now. I will hold off on sending my comments (file #3) until after our discussion at 2:30 this afternoon.

I'm looking forward to our discussion.

Thank you all,

Vince
